

Sermon for 9/3/2017  
Title: "The Body at Work" By Steve Miller  
Text: Ephesians 4:1-16 NIV

- As believers we are called to labor in a different way
- The church is called to maintain unity in the Body in practical ways and theological understanding.
- Each believer has been given a gift by God to serve the Body.
- The body of Christ is to be built up on a continual basis until we reach unity in faith and knowledge and maturity while attaining the whole measure of the fullness of Christ.
- There are two key benefits of this Maturity in the fullness of Christ.
- First Benefit – we will not be tossed around by unbiblical teaching and deceitful scheming.
- Second Benefit – We will know the truth and be able to speak it with clarity and Love to build the body for its work in the world.
- Let us live a life worthy of the call that we have been given

Charge: Let us be the Body of Christ at work - fully built up and ready to serve.
